

## Planlæg dine sommerleverancer

18. april 2023

Selv om sommerferien lige nu synes langt væk, vil vi alligevel gerne informere jer om vores afvikling af sommerferie. Det gør vi, så I allerede nu kan begynde at planlægge jeres leverancer i den periode.

Vi sender vores ansatte på velfortjent sommerferie, og det sker for langt størstedelens vedkommende i løbet af juli måned. Mere præcist i ugerne 27 – 30, begge uger inkluderet.

Det betyder ikke at vi har lukket, blot at vi kører med reduceret bemanning. Hele sommeren vil der være bemanning både i vores salgsafdeling og på vores lager og værksted, og der vil selvfølgelig være mulighed for ekspedering af ordrer i hele perioden.

For nærmere information så kontakt salgsafdelingen.

## Plan your summer deliveries

*18th of April 2023*

Even though the summer holidays right now seem far away, we would still like to inform you about our plans for the summer holidays. We do this so you can already now start planning your deliveries during that period.

We are sending our employees on a well-deserved summer holiday, and for many of them this happens during the month of July. More precisely, in weeks 27 – 30, both weeks included.

This does not mean that we are closed, just that we are operating at reduced capacity. Throughout the summer, we will be working both in our sales department and in our warehouse and workshop, and of course there will be the possibility for processing orders throughout the entire period.

For further information, please contact the sales department.
