

Date: June 2026

Notice of price adjustment as of 1 September 2026

Dear customer,

We hereby wish to inform you that Jens S. Transmissioner will implement a price adjustment on all standard transmission products with effect from 1 September 2026.

This price adjustment does not apply to gearboxes, geared motors and conveyor belts.

The price adjustment is due to a number of specific cost increases that have affected the market in recent months and continue to impact businesses. In particular, we are experiencing rising costs for freight, energy, packaging and general operations. In addition, supply chains remain under pressure, with prices for raw materials, imports and logistics fluctuating more than before.

Several suppliers have either announced or already implemented price adjustments, which directly affect our purchase prices. In addition, transport and distribution costs remain at a high level, among other things due to capacity pressure, rising operating costs and uncertainty in international supply chains.

This development is also reflected in the general price indices for producer and import prices, which track developments in companies' purchase and sales prices, according to Statistics Denmark. [Statistics Denmark](#)

For an extended period, we have monitored the situation and tried to absorb a significant part of the increases internally through efficiency improvements and optimized planning. However, it is no longer possible to maintain the current prices without compromising the quality, delivery reliability and service that we wish to provide to our customers.

Therefore, we will adjust our prices as of 1 September 2026 by 4.8%. The adjustment applies to all gross prices and agreed net prices. Orders placed and confirmed before this date will be delivered at the current prices, unless otherwise agreed.

Frame orders and stock agreements are adjusted on an ongoing basis in connection with renegotiations and are therefore not covered by this adjustment.

If you have any questions regarding the price adjustment, or if you would like a review of your specific product range, you are very welcome to contact us.

Thank you in advance for your understanding and continued cooperation.

Kind regards
